```
From this screen, key in a C in the field preceding the volume serial number to display the Change Volume Details screen.

Press ENTER and you will be presented with the following screen. To change the Expiration date, simply over stroke the data in the field.

Press Enter and you will be presented with the following screen, with the “Volume changed” text appearing on the upper right of the screen. Please note that, even...
though the Expir./Retn. date field may still reflect the old expiration date, the volume has been updated. This field will reflect the correct date the following day, once normal RMM daily batch processing has run.

To see the change, simply key in a V in the field next to the volume, and Enter, and you will be presented with the Volume Details screen, which will show the changed expiration date.
Tape Volume Expiration Date Change Procedure
